SUMMARY

In a world entangled with complex challenges, I find it essential to start by listening. By adopting a high-level viewpoint and considering the full story, I deliver solution-driven decisions at the ground level. My passion for creative communication is expressed through crafting elegant and intuitive user interfaces that convey relevant information through engaging digital experiences. I thrive at the frontend of user experience and application development.

EDUCATION

NORTHESTERN UNIVERSITY
Master's in Computer Science, *Expected Graduation 2025*

UNIVERSITY OF SOUTHERN MAINE
Bachelor's in Finance - Graduated 2019
